

## HUNTER & HUNTER PARTNERSHIP CELEBRATION

Gilbane and North Carolina's Hunter & Hunter General Services recently celebrated the 5-year anniversary of our ongoing partnership. Gilbane is deeply proud of our relationship with Hunter & Hunter. They bring tremendous value to our projects and, as a fellow family-owned firm, they share our customer-focus and core values.

*In a letter to Bob Crowder, Vice President, Gilbane Building Company*

“We can hardly believe it's been over 5 years since you came up to introduce yourself to the Hunter & Hunter team at the United Minority Contractors of NC conference in Greensboro, NC. At the time Hunter & Hunter had been in business for only 7 months. You became our source of knowledge and our mentor and Gilbane was the first and only large GC to give us a chance to prove ourselves in this vast industry. Gilbane took us under your wing and showed us that with hard work, dedication and honesty we could go a long way and succeed.

Over the past 5 years Hunter & Hunter has worked very hard and we have been blessed to have the opportunity to work for Gilbane on two of its largest projects in North Carolina. – Project Cardinal (2 years) and Project Bishop.

Thank you so much for reaching back and helping a small company like ours and giving us the opportunity to work for Gilbane and build our business. Gilbane is a true representative of working partnerships to build success!”
