MEET GILBANE BUILDING COMPANY
Depending on your project needs, we can assist with deciding on the right delivery system. We deliver quality, safety and most of all value with these approaches:

- **Construction Management-at-Risk**
- **Construction Management Agent**
- **Design-Build**
- **Integrated Project Delivery**
- **Lump Sum General Contracting**
- **Performance-based Contracting**
- **Program Management**

From our industry-leading conceptual cost modeling tool to our Transition Planning and Management group, we offer assistance and know-how every step of the way. Need help navigating through protocols after a catastrophic event? Want to make sure your facility is performing at optimal energy efficiency levels? How about a plan for ensuring a seamless transition into your new space?

Gilbane Consulting offers a comprehensive group of services designed to make the delivery and management of your buildings easier—no matter where you are in the life cycle of your facility.

As part of our culture of client advocacy, we deliver projects on time, on budget, safely and efficiently while providing added value with innovative approaches.

**LEADER IN TECHNOLOGY**

We view technology, such as Virtual Design and Construction (VDC), as a critical factor in successfully meeting our client’s needs. Collaborative systems such as iBuild are the result of our commitment to continuous improvement in our technology and processes. This innovative solution focuses on an integrated approach to improve the way facilities are built.

Gilbane provides a full slate of construction and facilities-related services from sustainable building to the latest in construction technology for clients across various markets. Founded in 1873, Gilbane is a privately held, family-owned company.

“When I come to work in the office, I sit at my father's desk. It gives me an appreciation for the history of excellence that has been handed down through the generations of the Gilbane family. The legacy of our founders is to exceed our clients' expectations, and we are doing that today on project sites across the country and around the world.”
